6th January 2016

To All prospective tenderers

Site Meeting Minutes:

FTS 195-15 Tender for Internal Plastering and Painting Works using Environmental Friendly Products at Haz Zebbug Primary School (Ex Secondary School)

Reference is made to the above mentioned tender.

Following the site meeting held on the 5th January 2016, underneath please find the questions that were raised together with the respective answers:

1. When will the works commence?
   The exact date is not known as this depends on the tendering processing time.

2. How will the internal walls be treated?
   All the internal walls will have to be cleaned down, hacked and prepared to receive rendering work as described in the Bill of Quantities.

3. Please indicate the extent of the works
   The extent of works were shown on site.

4. Which apertures will have to be removed?
   Various existing apertures that will be removed were indicated on site. It was noted that a rate per aperture needs to be provided in the Bill of Quantities even though the size of apertures vary from each other.

5. Will the colour of the paint be indicated?
   Yes, the colour of the paint will be indicated by the Architect in charge in due course.

6. What will be the internal rendering?
   Item 2.3 and 2.4 of the Bill of Quantities was read. The importance of the thickness of the gypsum base coat (10mm) and finishing coat (3mm) for the internal walls and the thickness of the pre-mixed (factory made) cement based mortar (10-14mm base coat and 3-5mm finishing coat) for the internal lift shaft was pointed out.

Please be guided accordingly.
